# Engineering Service Prices

## PV System Design\*

<u>Preliminary Array Layout Residential</u>	\$50
<u>Residential</u>	\$290
<u>Advanced Residential</u> (no satellite image available)	\$350
<u>Preliminary Array Layout Commercial</u>	\$250
<u>Commercial</u>	Up to 100 kWdc: \$990 Up to 500 kWdc: \$2490 Above 500 kWdc: \$TBD
<u>Advanced Commercial</u> (no satellite image available)	Add: \$190
<u>Special Design requests**</u>	Custom Quote. (no charge until quote is approved)

\* Includes array layout, inverter & module selection, string configuration, simple electrical wiring diagram, energy production estimate.

\*\* Ground Mount, Car Port, Consumption off-set calculation, Site inspection, etc.

## Permit Packages\*

<u>Residential</u>	\$825
<u>Commercial</u>	Up to 100 kWdc: \$2950 Above 100 kWdc: \$TBD

\* Construction Plan-Set including cover page, site location map, array layout, string configuration map, electrical wiring diagram, structural details, equipment specs. P.E. stamp is not included with the Permit Package.

## P.E. Stamps and Engineering Calculations

Residential:	\$250
Commercial:	\$450
